

# ROTARY GATE SYSTEMS™

**SL-c Commercial**  
**SL-i Industrial**

RGS slide gate operators mount directly to the support posts of the gate and allow for installation where pad mounted or chain drive operators are not desirable or practical. Two power levels are available: SL-c commercial grade for residential and commercial sites or SL-i Industrial grade for heavy commercial and industrial sites.

#### CAPACITIES:

SL-c Commercial: 35', 1500 lbs., Continuous Duty  
SL-i Industrial: 45', 2500 lbs., Continuous Duty

#### UL LISTED FOR CLASS I, II, III, IV

#### FUNCTIONALITY

- Full Systems Capable Controller
- Soft Start / Stop
- Inherent Reverse Sensor (UL 325 type A obstruction sensor)
- Open and Close Obstruction inputs (for UL 325 type B1 or B2 sensor)
- Multiple Opening options on power outage
- Convenience Outlet for Accessories
- High Torque Permanent Magnet DC Motor
- UHMW Nylon Rack Gear Provides Years of Trouble Free Service
- Rack and Pinion Design is more secure than Hydraulic Drive Rail type operators

#### OPERATOR DIMENSIONS

Operator: 26" High x 8" Diameter  
Control Box: 18" x 18" x 6"

#### ELECTRICAL

120 VAC, 60 Hz, 20 Amps  
Prewired NEMA 3R Control Box

#### MECHANICAL

Direct Drive 93:1 gear reduction  
Key Secured Emergency Release for  
Easy Override
